

<p><b>1. Identification of Substance &amp; Company</b></p> <p><b>ASPHALT CONCRETE &amp; HOT ROLLED ASPHALT</b></p> <p><b>Company</b>  North East Site Services  High Street  Newburn  Newcastle Upon Tyne  NE15 8LN</p> <p>Tel: 0191 2290015</p>	<p><b>5. Fire Fighting Measures</b></p> <p><b>Suitable Extinguishing Media</b>  Dry powder, foam</p> <p><b>Unsuitable Extinguishing Media</b>  CO2</p> <p><b>Special Exposure Hazards in Fire</b>  Hydrocarbon fumes may be released.</p> <p><b>Special Protective Equipment for Fire Fighters</b>  Full protective clothing including suitable respirator or breathing apparatus.</p>
<p><b>2. Composition/information on Ingredients</b></p> <p>Asphalts are a mixture of aggregates and bitumen. Bitumen is a hydrocarbon derived from the distillation of petroleum crude oil. Asphalts containing additives are out of scope of this data sheet. For further details of the specification refer to the relevant Technical Data Sheet</p>	<p><b>6. Accidental Release Measures</b></p> <p><b>Personal Precautions</b>  Ensure the temperature of the Asphalt does not present a Safety Hazard  Wear overalls and gloves</p> <p><b>Environmental Precautions</b>  Entry into watercourses should be avoided.</p> <p><b>Methods for Cleaning</b>  No Special Requirements</p>
<p><b>3 Hazards Identification</b></p> <p>These products are NOT classified as hazardous in accordance with the CHIP regulations (SI 3247:1994). The main hazards presented by Asphalt depends on the temperature of the material. The following hazards may apply:</p> <ul style="list-style-type: none"> <li>- Hot materials may burn the skin</li> <li>- Fumes from Asphalt are unlikely to be hazardous when laid in open air situations, but there may be a risk to health by continuous inhalation of high vapour concentrations which might arise in confined or semi-confined spaces.</li> </ul>	<p><b>7. Handling and Storage</b></p> <p><b>Handling</b>  Skin contact with the materials should be avoided. Inhalation of fumes should be avoided as far as is reasonably practicable</p> <p><b>Storage</b>  No special requirements.  Refer to the relevant Technical Data Sheet for the specific product</p>
<p><b>4. First Aid Measures</b></p> <p><u>Summary of First Aid Procedures</u></p> <p><b>Inhalation</b>  Immediately remove to fresh air. If breathing is stopped or irregular, apply artificial respiration, give heart massage if necessary if necessary and give medical attention.</p> <p><b>Skin Contact</b>  Burns caused by contact with hot material should be cooled by immediately drenching with cold water. The bitumen may then be removed under medical supervision with warm medicinal paraffin.</p> <p><b>Eye Contact</b>  Irrigate with water for at least ten minutes. If pain persists seek medical attention.</p> <p><b>Ingestion</b>  Remove to fresh air and give water to drink. Seek medical advice.</p>
